Mr. Stewart Bruner, AOC ITD Strategic Planning Manager, COT Staff

SUMMARY:

At the November 9, 2012 Commission meeting, staff provided members with a redline version of proposed changes to a six-year-old set of technical and operational standards related to the final recommendations of the Supreme Court's Keeping The Record Committee codified as ACJA §1-602. Stewart now returns to share the changes recommended from reviews by other committees, court associations, and on the ACJA Web Forum.

Members will be asked to provide their final comments and approve content to present to the Arizona Judicial Council (AJC) for consideration.

STAFF RECOMMENDATION:

Approve the further updates that respond to comments, with the understanding that the proposed revisions will still be reviewed by AJC before final approval.

ACTION OPTIONS:

MOTION -- Recommend the proposed changes to the code section to AJC for consideration.

- 1. Approve the revised content of the code section, as presented.
- 2. Approve the revised content of the code section but with further changes, as documented.
- 3. Withhold approval for revised content of the code section and provide direction for the necessary changes to the draft necessary to obtain later approval.
- 4. Disapprove any changes to the content of the code section, leaving the

content as it appears today and making no recommendation for change to AJC

5. Table the consideration of revised content of the code section for later discussion.
